20	Bachelor of Multimedia Arts
19	BS Office Administration
18	BS Entrepreneurship
17	BS Business Administration
15	BS Nursing
14	BS Nutrition and Dietetics
13	BS Medical Technology or Medical Laboratory Science

## Clarification on the implementation of CMO 20, s. 2013

- CHED has released CMO 20, s. 2013 on the offering of eight (8) core courses that gave an option to HEIs whether they would teach the said courses in either in English or on Filipino language, this also includes the mandated Rizal's Life and Works.
- On April 21, 2015, the Supreme Court en banc issued a (TRO) enjoining the Commission from implementing and enforcing the provisions of CMO 20, series of 2013, insofar as it excluded from the curriculum for college Filipino and Panitikan as core courses.

- The TRO does not put an injunction against the said CMO, except on the exclusion of Filipino and Panitikan courses, and
- while the TRO is in effect and is awaiting for the Supreme Court's resolution of the case, the inclusion of 9 units GE electives starting AY 2018-2019 as prescribed in the CMO is deferred in order to provide flexibility in the GE curriculum, until further notice from the Commission and at the same time, the HEIs must include Filipino and Panitikan as core courses in the GE during the effectivity of the TRO.

- Last year's HEMIS submissions through the CHED Electronic Collection & Knowledge System or CHECK System was only 80.12%.
- The 100% submission of higher education data remains a **dream** for CHED IV. I hope, through the continuous assistance of ACURLO in the submission of HEMIS data the 100% retrieval rate will happen this academic year. As of today, there are only \_\_\_\_% submission

- Implementation of the Republic Act 10533 or the “Enhanced Basic Education Act of 2013”
- Identification of new and identified higher education data elements for AY 2018-2019

## **Policy on Students Affected by the Implementation of the K to 12 Program and the New General Curriculum**

Category 1: High school graduates of SHS early adopters intending to enroll by June 2017

- a) Subject to school policy, only courses taken in grades XI and XII which fall under the heading of General Education shall be considered for unit crediting provided that the admitting institution is implementing the current GE
- b) In case the admitting institution is an early implementer of the revised GE curriculum, there shall be no crediting of units

Category 2: High school graduates of the old basic education curriculum intending to enroll by June 2018.

Students who **graduated in high school on or before June 2016** may enroll in HEIs **as first year college students** under the new higher education curricula. However, to ensure college readiness of the student enrolling under the new higher education curricula, the admitting HEIs may require bridging programs for the GE component.

Category 3: **First year, second year, third year fourth year, or sixth year college students under the old higher education curricula who stopped schooling and intend to re-enroll by June 2018**

These **students may re-enroll in any HEI** which shall be offering the new higher education curricula subject to admission requirements of the admitting HEI. However, since the new higher education curricula includes new GE curricula:

- a) The HEI has the option to give the students bridging program or require the students to enroll the courses under new GE curricula.
- b) For professional or major subjects taken by the students other than GE, HEIs may implement their own requirements of policy for crediting.

Thank you and may the good Lord  
bless us always.
